KOH-I-NOOR

Clothing Spin Dryer

The Koh-I-Noor Spin Dryer is the eco-alternative and the ideal compliment in the laundry. The Koh-I-Noor Spin Dryer utilises a fast and powerful water extraction process to dry your clothes saving electricity, money & time.

The Koh-I-Noor Spin Dryer is very simple to operate; after washing your clothes either by hand, automatic or non-automatic washing machine, place them in the Koh-I-Noor Spin Dryer and turn it on - that's all there is to it!

The Koh-I-Noor Spin Dryer takes just 3 minutes and removes 70% of remaining rinse water (amount of water extracted may vary depending on the type of fabric), detergents and chemical residues by way of centrifugal force; 3 times more powerful and 5 times faster than the spin cycle on a typical washing machine, leaving your clothes ready for ironing. The Koh-I-Noor Spin Dryer is suitable for all types of clothing fabrics: cotton, wool, synthetic, polyester etc. leaving them as new and preserves the original colours because heat is not applied.

Environmentally Sound & Very Economical

Now with the Koh-I-Noor Spin Dryer drying the washing and saving money is no longer a problem, because the Koh-I-Noor Spin Dryer's energy consumption per year is extremely low, in fact less than \$2.00 per year!

For example: using the Koh-I-Noor Spin Dryer once a day on a 3 minute spin cycle for 1 year, the amount of energy consumed per year is only 9KWh.

9KWh x \$0.19*=\$1.71; This means HUGE SAVINGS on your electricity bills!

*This value may vary according to cost (\$) per kilowatt hour.

Energy Consumption Per Year

9KWh x \$0.19=\$1.71

(Based on 365 drying cycles of 3 minutes each)

Reduction of energy consumption will decrease your household's emissions which helps our planet.

KOH-I-NOOR

Koh-I-Noor Clothing Spin Dryer Vs. Conventional Tumble Dryers

KOH-I-NOOR

- **Saves time**
- **Saves energy**
- **Suitable for all types of clothes**
